Amkette, the leaders in digital storage and lifestyle peripherals today elevates the wireless offerings with its next generation wireless and keyboard mouse combo called the Black Diamond Desktop. This innovation is following the trail blazing success of company's recent offering the 'Freedom from Desk Keyboard with an inbuilt mouse. This sturdy desktop, with an embedded metal plate, is an ultimate fusion of wireless freedom and contemporary design. This stylish yet brawny desktop delivers the convenience, comfort, and elegance you desire while liberating you from entangled wires.

Amkette wireless keyboard and mouse combo provides higher stability and state of art technology for those who want to relax while working. "The most important innovation is that we have embedded a metal plate at the back of the keyboard, for extra stability. This makes the keyboard slimmer yet solid.

With its chic glossy finish, it looks like it has been delicately carved out of stone – A Black Diamond." said Mr. Rajiv Bapna, Director, Amkette . The keyboard feature concave shaped keys for low resistance typing and additionally has 9 multimedia keys for one touch access to internet & multimedia functions.

This ergonomically designed duo is a full featured desktop based on 2.4 GHz technology and thus giving upto 10 meters of wireless freedom. Additionally it features advance power management system. The wireless module consumes very low power and goes to sleep mode if not in use for more than 4 minutes, thus increasing the battery life.

#### Features of Keyboard

- Stability- Metal Plate for extra Stability
- Extra Long Battery Life- Power saving circuit for extended battery life. No need to keep changing the batteries. Switches to sleep mode if not in use for 4 minutes
- Super Slim Design- Compact and contemporary, this duo will enhance the beauty of your desktop.
- Comfort typing Experience- With concave keys for low resistance typing.
- Multimedia Keys- 9 dedicated hot keys for applications and media control.

#### Features of Mouse

- Slim Design- a full size sleek and ergonomic mouse for ambidextrous use.
- Looks- Glossy finish yet minimizes fingerprints
- High definition wireless freedom - 2.4 GHz wireless technology with 800 DPI optical engine

#### Pricing & Availability

Backed by 3 years warranty, Black Diamond is available at all Amkette resellers at a street price of Rs.1600/-
